Professional Summary

Software Engineer with 1+ year of experience developing modern web applications using React, Next.js, TypeScript and GrapesJS. Passionate about learning new technologies, building scalable software and solving engineering problems through AI-assisted development.

WORK EXPERIENCE

Junior Software Engineer

March 2025 – Present

W3 Engineers Ltd.

- Developed and maintained frontend features for **PRESTO**, an AI-powered website builder using React, Next.js, GrapesJS, JavaScript, TypeScript and Tailwind CSS.
- Built reusable website templates and UI components to improve development efficiency.
- Integrated REST APIs and collaborated with backend developers to deliver end-to-end features.
- Participated in feature development, debugging, testing and code reviews using Git-based workflows.
- Utilized AI-assisted development tools to accelerate implementation while validating correctness and code quality.

Software Engineer Intern

Nov 2024 – Feb 2025

W3 Engineers Ltd.

- Completed full-stack development assignments covering React, Next.js, Node.js, Express, Django, Flask, Go (Beego), Selenium, Scrapy and LLM applications.
- Rapidly learned unfamiliar technologies and delivered assignments across multiple programming languages and frameworks.
- Worked with Git for version control and followed software development best practices.
- Achieved **1st Runner-Up** in an AI Hackathon by developing **HRcomrades**, a multi-agent recruitment assistant using CrewAI and ChatGPT API.

Skills

Programming Languages: C, C++, Python, JavaScript, TypeScript

Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, GrapesJS

Backend: Node.js, Express.js, Flask, Django, REST APIs

Databases: PostgreSQL, MySQL, Oracle SQL

AI / ML: TensorFlow, Scikit-learn, Keras, CrewAI, OpenAI API, Google Colab

Tools: Git, GitHub, Docker, Postman

Soft Skills: Problem Solving, Communication, Quick Learning

Professional Projects

• Owner Direct

[Live Site](#)

Contributed to the development and maintenance of a large-scale vacation rental platform by implementing frontend features, developing responsive UI components.

• SmarTours

[Live Site](#)

Contributed to the development and enhancement of a travel booking platform by building responsive interfaces, improving user experience.

Publications

- **Enhancing Heatwave Predictability in Bangladesh through Deep Learning Approaches**
[IEEE](#) | [Springer](#)

Designed and evaluated deep learning models including LSTM, GRU, Conv1D and hybrid architectures using historical weather datasets from Bangladesh. The attention-based Conv1D+GRU model demonstrated superior performance for 7-day forecasting of maximum temperature and humidity.

- **Diabetes Prediction using Machine Learning and Deep Learning** [ACM Digital Library](#)

Implemented and compared multiple machine learning and deep learning models on the Pima Indian Diabetes Dataset. Evaluated various prediction models, where the MLP model achieved the highest accuracy, demonstrating the effectiveness of AI techniques for healthcare prediction.

Education

2024	B.Sc. in CSE	Ahsanullah University of Science and Technology	(CGPA: 3.779/4.0)
2019	HSC	Rajuk Uttara Model College	(GPA: 5.0/5.0)
2017	SSC	Monipur Uchcha Vidyalaya and College	(GPA: 5.0/5.0)

Certifications

BADGE of Completion: Course on CrewAI [Certificate-Link](#)
Full Stack Web Development with JavaScript (MERN) on Ostad [Certificate-Link](#)
National Girls' Programming Contest 2022 [Certificate-Link](#)
National Girls' Programming Contest 2021 [Certificate-Link](#)
Cefalo Code Fiesta 2022 [Certificate-Link](#)
